

## Story Sparkers : A Creativity Guide for Childrens Writers

This book is a practical guide for writers interested in writing for the childrens market, and teaches aspiring childrens writers how to generate, assess, and apply ideas for fiction as well as nonfiction, short projects as well as long ones. Marcia Thornton Jones offers exercises, worksheets, and guidelines for assessment to help writers apply what theyve learned to on-going projects or to help them begin new projects. Story Sparkers begins with an overview of how to write fiction and nonfiction books for children. Jones then discusses the specifics of idea generation assessment and application. The design is open, easy to browse and features boxed tips and quotes from top childrens writers. By the end of the book, writers will have a plethora of ideas and insight to help determine audience and appropriate genre, and helpful hints for developing new ideas. While this book is intended for novice writers who are interested in writing for the childrens market, writers with experience will find it helpful and motivating, too.
